## Water Store Skid

**The MoBeta Pro Series 2600/5200/7800 Water Store Skid System is a state of the art water treatment system designed for today's busy water store.**

- 2600, 5200 or 7800 GPD rated capacity.
- Stainless high pressure pump and membrane vessels.
- Full microprocessor control package including TDS monitor and alarm, auto flush system, elapsed hour meter and much more.
- RO monitoring package w/ flow meters, filter gauges, etc.
- Dual Alternating Autotrol Ready Soft water softener.
- 2.0 Cubic Foot GAC filter w/ pre-treat lockout..
- Dual 20" Big White pre-filters.
- Dual 20" Big White Post Filters.
- Grundfos MQ re-pressurization system. Water cooled motor, stainless pump end, run dry protection.
- 28 GPM Trojan UV Max.
- Heavy duty, powder coated steel frame with casters for ease of movement.
- Pre-plumbed with schedule 80 PVC and tested prior to shipping.

### **Other great features include:**

Polished stainless steel tank jackets and control panel for that Professional, clean appearance.

The system makes excellent water virtually anywhere, in fact it shuts down automatically if the water goes "out of spec".

Easy to install! The feed water, drain, storage and point of use connections can be connected on either side of the system.

It will operate up to six fill spouts and a window vendor at once.

The system is upgradeable, you can convert a 2600 to a 5200 or a 5200 to a 7800 with a simple plug and play optional membrane and housing. All mounting holes are pre-drilled. The whole upgrade takes less than 1 hour to perform.
